In April 41% of Brits thought UK media's coverage of crisis was good.

That number has now plummeted to 23%.

48% think quality of UK coverage is bad, compared to only 22% in Germany.

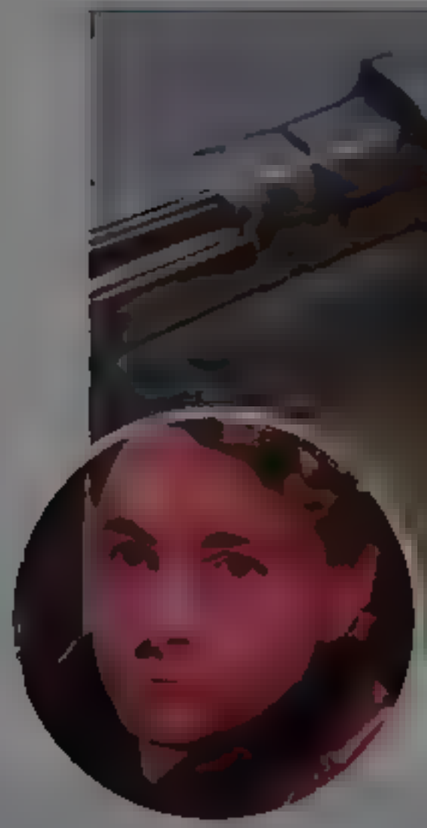
Why does our government continue to incentivize illegal migrant boat crossings?

You're literally offering them a taxi service.

Do what Salvini did and simply end the taxi service.

This drastically reduced attempted incursions and actually saved lives.



It's not rocket science.

Salvini stopped incentivizing illegal boat crossings and halved the number of migrant deaths.

Don't entice them to make the dangerous journey in the first place by offering a de-facto taxi service.

Remember when BuzzFeed accused me of lying for pointing out a certain demographic was celebrating the Notre Dame fire?

They actually claimed nobody knew what people were celebrating....when the cathedral was right there in the background burning.

43% of Brits say they are "enjoying" the lockdown. 25% say they're not.

53% think the lockdown is being eased "too fast". 11% think "too slow".

58% think pubs should not re-open. 35% think they should.

Yes, they're enjoying virtual house arrest.

It's admitted that people like David Bowie had sex with 14 year old girls. Why do we allow people who were "talented" to get away with pedophilia just because they were talented?

The British media seem very competent in tracking the "illegal" movements of Dom Cummings...

Perhaps they could focus some of that talent on the illegal movements in the Channel & get a grasp on the trafficking industry which has flourished there during lockdown.

They don't think much of him in Barnard Castle either. Or Peckham. Or Leeds. Or Bristol. Or Norwich. Or Glasgow. Or anywhere.

Because he drove a car full of Coronavirus to the other end of the country, in clear breach of the lockdown rules he helped draw up.

I'm sure Cummings rising from his sickbed just in time to squash a plan to extend the #Brexit transition, drawn up while he and Boris were out of action and "all but agreed at official level", has nothing to do with the current witch-hunt.

So Mr Cummings has busted the media lies. He made NO trip on the 19 April, he never received a police warning, he did nothing immoral & broke no laws.

The witch-hunt against Mr Cummings has been a disgrace from the start.

The MSM trying to punish him from beating them in 2016!

The media is in meltdown about Dominic Cummings, one man, travelling from one end of England to the other to protect his family

Yet, 100,000 people a week have been landing into the UK, from foreign countries and they haven't batted any eyelid.

It's about Brexit, not lockdown!

EVERY FOUR YEARS the black community takes the media bait. They find one tragedy and are able to get enough athletes and rappers to hype it so the black youth believes they have no choice but to riot and destroy themselves bc this world is against them.

The Left's goal is to pressure Trump to authorize the national guard to fire on the rioters - thereby proving he's a murderous tyrant.
That's why the riots are happening in Democratic cities, why those in charge do not put an end to it.
Democrats even pay to bail out rioters

It is enraging to think that at this very moment an American citizen is more likely to be arrested for attending church than for fire-bombing a church, if that person lives in a liberal city or state.

Weird that a lot of the violent left legitimize smashing big business and lux brands because they think they're associated with "the right".

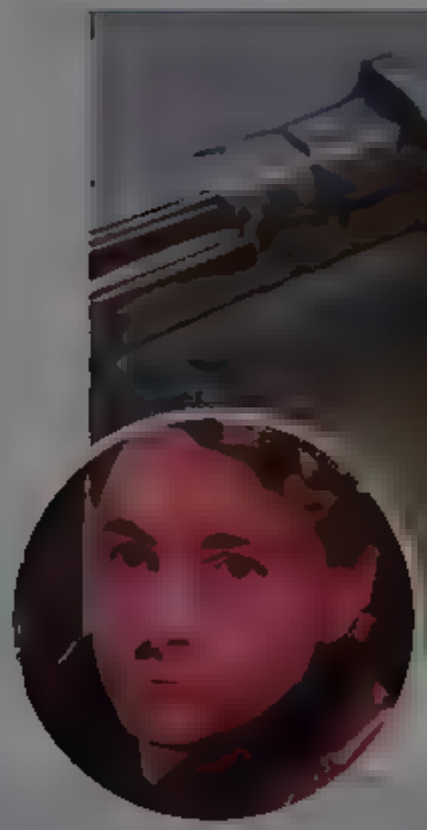
Posting pictures of your food on social media is racist.



Before posting a selfie or a picture of what you're eating for dinner or your friends by a pool, remember that in doing so you are actively acknowledging that you have the freedom and time to care about other things outside of the urgent fight for racial justice. So be careful about what you're choosing to say in this space right now and ask yourself, "could the real estate I'm about to occupy on the internet be better suited to something more helpful?"

Are we still pretending this rampant criminality is a "protest" against police brutality?

Fascinating how virtue signaling has evolved from people echoing social justice dogma for brownie points to people echoing social justice dogma because they're terrified of their friends attacking them for not loudly proclaiming that they share the same opinion as everyone else.

Almost $150,000 has been raised overnight for Captain David Dorn, an African-American man who was shot dead by looters as he tried to defend his community, with none of the money coming from celebrities who are instead fundraising to bail out criminals.

Why is the media no longer concerned, and often almost gleeful, about all the mass gatherings that would have been so deadly due to COVID 19 just a few days ago?

The UK left hyperventilated for a week over Dominic Cummings 'violating social distancing' to provide care for his child.

Now thousands are on the streets doing exactly that & they celebrate it.

Meanwhile, people can't hug their parents or attend funerals.

Media says NOTHING.

There were 149 homicides in London in 2019, the majority of the victims black.

In contrast, British police killed just 2 "unarmed" people in 2019, one of whom was a terrorist.

How many of those who attended the protest today said a single word about those 149 dead?

"White privilege" is amazing.

I'm so privileged to have virtually every cultural, political and media institution blame me for all the world's problems and to have a vicious mob threaten to ruin my life if I don't submit to their brainwashing.

So privileged!

Literally every major institution in the world, from Bank of America to Nickelodeon, has come out in favor of Black Lives Matter and the George Floyd rioters in the past two weeks.

There is no "systemic racism" against nonwhites in America.

Words are not enough, and they sometimes aren't the right words, but we want to say something. Racism should have no place in society. Not now, not ever. It cannot be tolerated.

Our hearts are breaking, for our Black Team Members, Operators and Staff and all those in the Black community who are suffering and who have suffered for too long because of racism. At Chick-fil-A, we know we have a role in moving all of us forward.

We will listen.
We will be intentional.
We will share.

We will act to build bridges
– to spread care and hope into our world –
today and always.

What a pathetic coward.

1200 public health experts have signed an open letter asserting that Black Lives Matter mass gatherings should be encouraged because “white supremacy” is a bigger health threat than COVID-19.

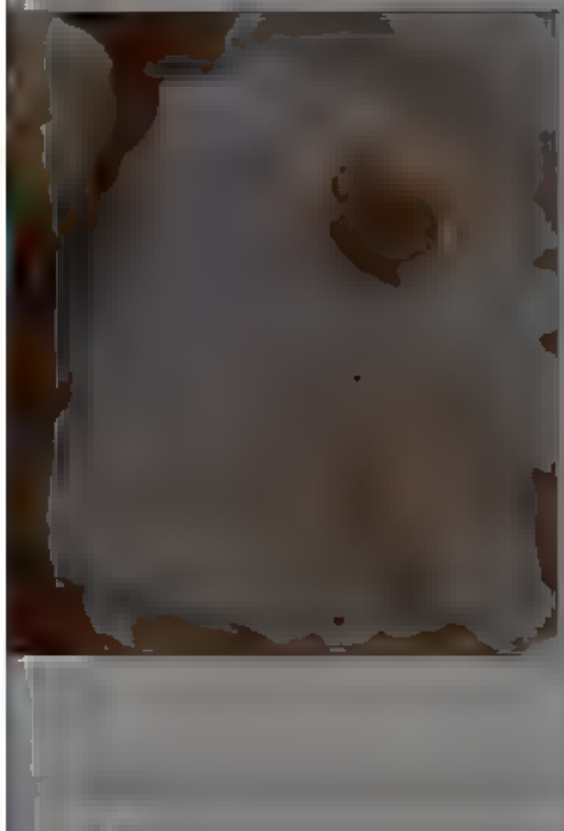
Why is the media claiming Trump said George Floyd was looking down and saying the economy numbers were a "great thing"?



Trump was explicitly talking about police brutality.

Just a total fabrication once again.

The Left is so arrogant, that they believe by lying every celebrity into posting a black square on their Instagram means that's there is consensus.
No, it means that there is mob rule. But the mob doesn't step into the voting booth with you.

"Racism is a bigger killer than coronavirus," said one of the protesters justifying thousands of people congregating during a pandemic.

UK police killed 2 unarmed people in 2019. One was a terrorist.

Coronavirus has killed 40,465 people in the UK so far.

If sex isn't real, there's no same-sex attraction. If sex isn't real, the lived reality of women globally is erased. I know and love trans people, but erasing the concept of sex removes the ability of many to meaningfully discuss their lives. It isn't hate to speak the truth.

The idea that women like me, who've been empathetic to trans people for decades, feeling kinship because they're vulnerable in the same way as women (ie, to male violence) 'hate' trans people because they think sex is real and has lived consequences is a nonsense

I respect every trans person's right to live any way that feels authentic and comfortable to them. I'd march with you if you were discriminated against on the basis of being trans. At the same time, my life has been shaped by being female. I do not believe it's hateful to say so.

Forget statues, when they start burning and throwing people in the river, the media will still call it "largely peaceful."

It's outrageous that a police horse got in the way of a dangerous projectile. If the horse hadn't been there, the projectile wouldn't have hit it.

Boris styled himself as Churchill reincarted, yet all he can say on a day when Churchill's statue, located in the heart of government, is defaced by thugs, is "wash your hands."

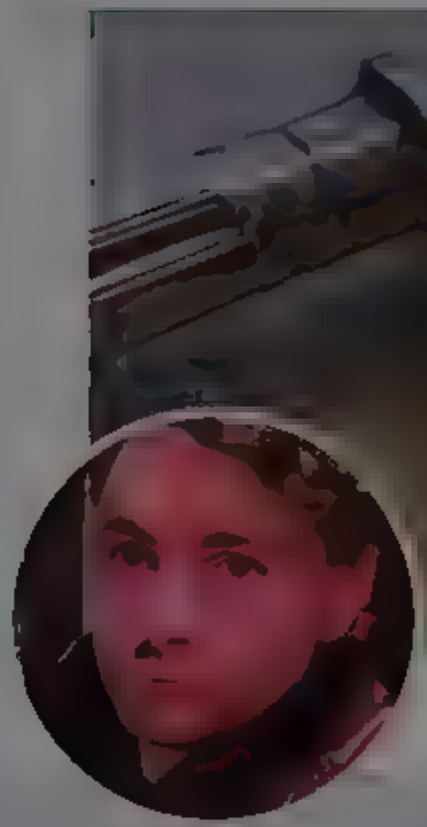
LMAO China apparently has a word for a person who's is excessively virtue signaling to gain validation for themselves. These types of people have the lowest self esteem—I've said it for years.

baizuo

Baizuo (pronounced 'bye-tswaw') is a Chinese epithet **meaning** naive western educated person who advocated for peace and equality only to satisfy their own feeling of moral superiority. A baizuo only cares about topics such as immigration, minorities, LGBT and the environment, while being obsessed with political correctness **to the** extent that they import backwards Islamic values for the sake of multiculturalism.



The Chinese see the baizuo as **ignorant** and arrogant westerners who pity the rest of the world and think they are saviours.

If they do this to "racist" statues with zero consequences, they'll do it to "racist" people.

And of course, to them, anyone who disagrees is "racist".

Sure, he was the orginal anti-fascist. He defeated Hitler & the Nazis. And he saved the free world.

But you're an angry, woke Lefty protestor (probably with a trust fund)—and you have a can of spray paint—so your contributions to humanity & equality are about the same.

The disingenuous sack of shit known as Owen Jones just managed to reach a new low

The female officer's horse was being pelted by bricks and other projectiles thrown by the crowd--causing it to bolt and very nearly ending her life

Jones is detestable. Absolute vermin

Owen Jones says join a union 🌹

@OwenJones84

This is a straightforward lie. The video shows the police officer riding directly into a traffic light, not being thrown off by protesters. twitter.com/darrengrimes_/...

Let's be honest, if the protest today was right wingers, Owen Jones wouldn't be blaming the police or horses, he'd be blaming right wingers 100% asking why the police didn't get hard & tough on them. But because it's left wingers & minorities rioting of course he blames the cops.

Maybe the police should start behaving like policemen and uphold the law perhaps they'd gain more respect

The cops had that shut down in a few hours and in just 2 days had arrested everyone involved.

Several mis ead ng statist cs have been used to paint a p cture of the UK as a racist society. One example is deaths in police custody. In reality, as the BBC has n..ted, 'over the past .0 years, 163 people have died in or follow.ng police custody in England and Wales'. Of the 163, 13 were black. In fact, over the past 0 years, 'a white individua who has been arrested was about ?> per cent more l kely to die in custody than a black individual who had been arrested'. No one should die unnecessarily in police custody. But as the figures show, this problem is hardly an example of an epidemic of systemic racism n pol.cing in Britain.

Breonna Taylor disproves that. As a conservative, I will gladly say police brutality does need to be addressed. But in the right way

18 9 295

Notmyblackdaughter @Notmyblackdaug1 · 14h

Breonna got killed because a black man she trusted with her address was into criminal activity. If that black man hadn't broken the law, there would be no reason for the police to be at poor Bre's address and she'd be alive today

We've set up an online form for people to send us footage they filmed of the statue being damaged in Bristol yesterday, if they have not yet shared those clips: ow.ly/BbFB50A27s2

We're also asking those involved in the incident to contact us.

Full details

An investigation into the criminal damage caused to a statue during a protest in Bristol yesterday is continuing
We've gathered a large amount of video footage showing the incident which happened at around 2.30pm on Sunday 7 June
Our inquiry team are not in a position to release images of those we'd like to speak to about this incident, but the footage clearly shows the small group of people who were directly involved
We'd urge these people involved in the damage to contact us as soon as possible to help us with our enquiries before a media appeal becomes necessary
If you filmed the damage being caused and have not yet contacted us, then you can provide the footage via this form: https://www.avonandsomerset.police.uk/sendfootage

When the mob comes after someone for old racist tweets you're claiming people can't change. But somehow, these same people will claim that a man who pointed his gun at a pregnant woman's belly "turned his life around" and deserves to be treated like a saint.

Will we have to burn Jane Austen's novels? So many references to plantations etc in the West Indies... And in Emily Brontë's Wuthering Heights, Heathcliff may even have been a slave boy from Liverpool, with his dark countenance... We have a lot of unpicking to do.

"Ancient Greek thinkers regarded ochlocracy as one of the three bad forms of government (tyranny, oligarchy and ochlocracy)."

Ochlocracy (Greek: ὀχλοκρατία, romanized: *okhlokratía*; Latin: *ochlocratia*) or **mob rule** is the rule of government by mob or a mass of people, or, the intimidation of legitimate authorities. As a pejorative for majoritarianism, it is akin to the Latin phrase ***mobile vulgus***, meaning "the fickle crowd", from which the English term "mob" originally was derived in the 1680s.

Ochlocracy is synonymous in meaning and usage to the modern, informal term

These people are certifiably nuts. The first Black woman to win an Oscar was Hattie McDaniel for Gone With The Wind. Now her work is removed from view in the name of being anti racist?

Imagine if armed separatist right-wing extremists in the U.S. had attacked a police station, taken over part of a major city and anointed a "warlord" to run it.

The media would be hyperventilating right now.

It happens in Seattle but with left-wing extremists.

Media: Meh.

In the first four months of 2018, media coverage of Trump was 90% negative, and yet his approval rating has continued to climb.

Whether you love or hate Trump, you have to admit this is impressive.

CNN promotes people who "swipe left" to reject dating Trump supporters.

Presumably, supporting the brutal dictatorship of North Korea instead gets you a swipe right?

Or maybe Trump voters have happy relationships & don't need dates with ugly losers.

Hillary Clinton has always been in perfect health.

Any claims to the contrary are outrageous "conspiracy theories".

Meanwhile, Donald Trump is sick & deranged despite being proven completely fit by a doctor.

CNN told me. It must be true.

You're playing into their hands. Any trouble will be put down to you. You would be far better off to say that you are all concerned about further damage so are pulling out. That leaves the BLM March who are looking for trouble and when it happens it's all down to them

I'm very confused about toppling statues...

The Greeks, whose civilisation has long been admired in the West, believed that in the Ancient World, a cultured society was only possible if it was based on slavery

So should we be getting rid of statues of Socrates and Aristotle ?

Churchill's statue doesn't look very "permanent" at the moment, Prime Minister. In fact I fail to see the difference between imprisoning him within a grey box and just carting him off to storage – he's erased from public view either way.

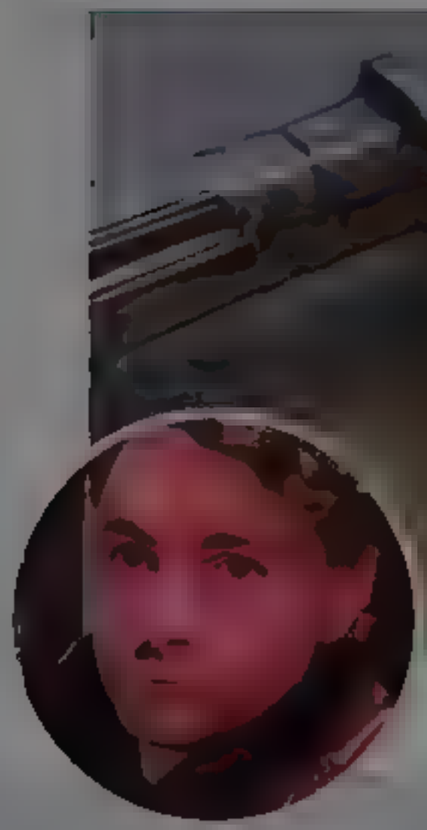
They won't stop until Mount Rushmore is turned to dust and rubble.

Nearly half of the signers of the Declaration of Independence and the Constitution were slave owners. So, too, were five of our first seven presidents and two of the four men on Mount Rushmore.

George Washington won the war for independence. Thomas Jefferson doubled the size of the nation with the Louisiana Purchase. Andrew Jackson saved the nation from defeat by the British at the Battle of New Orleans and seized Florida. James Polk took us to war with Mexico and relieved it of what is now the American Southwest and California.

All four of these nation-builder presidents were slave owners.



The systematic dishonoring and disgracing of men once revered has only just begun. But it represents a spreading revolution in thought and belief about the origins and history of America.

Notice that most conservatives, right-wingers, free speech activists etc. have condemned the violence in London today.

When leftist violence broke out last week, celebrities and left Twitter either lied about "peaceful protests" or praised rioting as the voice of the unheard.

AOC says anyone who questions her 'black' accent is a conspiracy theorist because she's from the Bronx.

She actually left the Bronx when she was 5 and grew up in Yorktown Heights - which is 90% white.

That accent was as phony as a $3 bill.

Worth re-visiting in light of today's AOC performance.

A Yale study found that liberals deliberately dumb down their vocabulary when speaking to black people in comparison to conservatives who don't.

A new Yale study has found that white liberals deliberately dumb down their vocabulary when speaking to black people in comparison to conservatives who don't.

According to the study, which is scheduled for publication in the Journal of Personality and Social Psychology "white liberals tend to downplay their own verbal competence in exchanges with racial minorities."

Cydney Dupree, assistant professor of organizational behavior at Yale SOM, and her co-author Susan Fiske of Princeton University first analyzed campaign speeches given by white Democrats and Republicans to minority audiences then compared them to speeches given to white audiences.

They found that, "Democratic candidates used fewer competence-related words in speeches delivered to mostly minority audiences than they did n speeches delivered to mostly white audiences."

I don't even like her (she blocked me years ago).

She is fuelled by being hated and trending on Twitter, and you provide her with that fuel every single day.

But it won't, will it?

That time when ISIS announced its plan to recruit social justice warriors because they broadly share the same goals.

European Muslims allying with Left-wing Activists:

A growing population of left-winged activists (people who are against; human/animal abuses, Zionism, and Austerity measures etc) look upto the Muslims as a force who are strong enough to fight against the injustices of the world. It seems from the article below that many of these people (who are sometimes part of Anonymous and Anarchy movements) will ally with the Muslims to fight against the neo-Nazis' and rich politicians. They will give intelligence, share weapons and do undercover work for the Muslims to pave the way for the conquest of Rome

How will this happen?

If you have ever been **at a pro-Palestine / anti-Israel protest**, you will see many activists who are not even Muslims who are supportive of what Muslims are calling for (the fall of Zionism). **It is most likely here that connections between Muslims and Left-wing activists will be made**, and a portion from them will realise that protests are not effective, and that armed combat is the alternative. So they will start to work together in small cells of groups to fight and sabotage against the 'financial elite'

One of BLM's stated objectives is to "dismantle the state" Just take a moment to think about that. They want to abolish human civilisation and politicians kneel to them, every corporation supports them, and if you question their actions you'll lose your job. Total insanity.

Statement from @TimMurtaugh following the removal of the @realDonaldTrump ads by @Facebook.

"The inverted red triangle is a symbol used by Antifa, so it was included in an ad about Antifa. We would note that Facebook still has an inverted red triangle emoji in use, which looks exactly the same, so it's curious that they would target only this ad. The image is also not included in the Anti-Defamation League's database of symbols of hate. But it is ironic that it took a Trump ad to force the media to implicitly concede that Antifa is a hate group."

In 46 seconds, Wolf Blitzer goes from hailing massive Black Lives Matter and Juneteenth protests and seeing no issue with them (because they're outside) to flipping out over the Trump rally. By this logic, why not have fans for outdoor sporting events? Full stadiums NOW!

Hillary Clinton says Europe needs to curb mass migration. Yes, Hillary Clinton.

Europe must get a handle on immigration to combat a growing threat from rightwing populists, Hillary Clinton has said, calling on the continent's leaders to send out a stronger signal showing they are "not going to be able to continue provide refuge and support".

In an interview with the Guardian, the former Democratic presidential candidate praised the generosity shown by the German chancellor, Angela Merkel, but suggested immigration was inflaming voters and contributed to the election of Donald Trump and Britain's vote to leave the EU

"I think Europe needs to get a handle on migration because that is what lit the flame," Clinton said, speaking as part of a series of interviews with senior centrist political figures about the rise of populists, particularly on the right, in Europe and the Americas

"I admire the very generous and compassionate approaches that were taken particularly by leaders like Angela Merkel, but I think it is fair to say Europe has done its part, and must send a very clear message 'we are not going to be able to continue provide refuge and support' because if we don't deal with the migration issue it will continue to roil the body politic"

WELCOME TO THE CIRCUS my final thoughts on the beauty world.

A few questions that have been getting lately

1. Did I know that she was thinking about making a video? Yes.
2. Did I tell her to make a video? No
3. Did I have any involvement in the video? No
4. Did I orchestrate it? No
5. Did I need that kind of "drama" to make a good series? No
6. Have I ever tried to ruin a career or make someone look bad in my 15 years on youtube? No
7. Do I have a track record of getting into drama with [illegible]

Suddenly her concern for "COVID" returns when Trump supporters congregate.

I guess the last 3 weeks of BLM mass gatherings didn't happen.

Fraud.

Macron's barely concealed hatred for his own country is really gonna do wonders for his already pathetic poll numbers.

I don't think he's "compromised". I met him for dinner years ago. Seems like a very authentic guy. But Trump really needs to re-connect with the 2016 OGs. Energy behind his campaign is weak.

Both of them obviously overreacted to thinking they were being dissed by each other. Trump needs to be conciliatory and invite him to the White House for a private meeting.

Never before until this moment has it truly hit me how massively the media lies and having settled on a lie, repeats it endlessly.

Elizabeth Loftus is a liar. Yahoo News are liars. You're all f**king liars.

> Watson, according to The Washington *Post*, calls any allegation that he edited or changed the speed of the video to make it look more abrupt or violent a "brazen lie." But he did admit to Buzzfeed that "digitally it's going to look a tiny bit different after processing and zooming in."
>
> Elizabeth Loftus, professor of law and social psychology at the University of California Irvine, disagrees. "The videos are totally different," she says. "Somebody is pretty talented to do it that skillfully and fast. They made it look like he hit her, that he reached out his arm and made contact."

I saw it live like millions of others. The media is banking on the fact that the people who didn't see it live will believe them. My conservative 80-something parents still watch mainstream news and believe what is being reported

This is complete bunk. I did not.

The clip is not "doctored" or "sped up". As you can see from the original editing track in Sony Vegas Pro, none of the individual tracks are "sped up". A track that is sped up would show wavy lines in the original track field, which it doesn't.

The only editing done to this clip is that it is zoomed in. The speed has not been altered from the original clip posted by the Daily Wire.

Earlier today, everyone was mocking Matt Schlapp for saying "statues of Jesus are next." Now the Left, lead by Shaun King, are openly calling for the destruction of churches and statues of Jesus.

They are a form of white supremacy.

YouTubers who complain about censorship are just 'posturing', says 60 page report that specifically lobbies YouTube to censor YouTubers. 😂

created by the AIN fits neatly into YouTube's business model.

Political influencers often fundamentally understand this. While they posture as being underground and facing censorship from YouTube, they also know they are being given a major platform from which to broadcast their views. On May 23, 2018, Paul Joseph Watson tweeted a photo of himself holding up a plaque YouTube sent to him for surpassing one million subscribers (Fig. 14). He added a caption, "YouTube secretly loves me."

There have now been three shootings in CHOP (nee CHAZ) and City Councilmember Kshama Sawant blames Donald Trump, right-wing provocateurs, conservative media, the mayor and the police chief. No mention of, you know, the actual shooters.

> It is no accident that right wing hate and violence has grown dramatically with Donald Trump in the White House If this killing turns out to be a right wing attack, President Trump bears direct responsibility, since he has fomented reactionary hatred specifically against the peaceful Capitol Hill occupation, and even threatened to intervene with federal troops Also responsible are the conservative and corporate media outlets, both locally and nationally which have themselves whipped up right wing hate by completely misrepresenting the nature of the peaceful protest occupation, and who are continuing to do so even now, claiming that this shooting proves the CHOP is descending into chaos Seattle's establishment Mayor Jenny Durkan and Police Chief Carmen Best also share responsibility for having portrayed our protest movement as violent.

We mistakenly identified all interviewees in this video as women. We would like to clarify that this story features women, trans and non-binary people, and we'd like to apologize to our interviewees.

Those who want to see everything through a lens of race and class, judging individuals based on immutable characteristics, pretend to be fighting the very thing they are enacting. And none of us wish to speak up because we have been bullied into silence. Anyway how was your day?

Nope. Nobody believes that. We remember the cases of Noah Carl (@NoahCarl90) and Jordan Peterson (@jordanbpeterson). Your institution dropped them in 2 secs once the mob came for them. But it's interesting you're standing up for someone who actually is a race-baiter this time.

Cambridge University has REWARDED an academic for tweeting "White Lives Don't Matter" with a full professorship.

Twitter even deleted the tweet for racist hate speech, but Cambridge is proud of it.

Insanity.

The WHO aided China's cover-up of COVID, amplified their fake, dangerous claim there was no "human to human transmission," and stupidly ordered countries not to close their borders as well as not to profile.

Yep, started blaming the government now. For the record the "horrible conditions" in Glasgow hotels housing asylum seekers include, according to the Guardian, "three meals a day, basic toiletries and a laundry service" as well as WiFi.

Why does he say 'white' as if it's a nasty swear word?

This is clear racism against 'white' people. All racism is evil. Bring back Enlightenment human equality.

Scotland is 96% 'white'. So only natural that positions reflect population.

The WHO aided China's cover-up of COVID, amplified their fake, dangerous claim there was no "human to human transmission," and stupidly ordered countries not to close their borders as well as not to profile.

Right decision by Trump to cut funding.

Funny how I only ever see conservatives standing up for leftists who want them dead but never for other conservatives who get fired for their political opinions.

I don't usually comment on such things, but given the truly horrific nature of what is being implied up and down my timeline today, I wanted to respond publicly with [illegible]'s permission. However, I speak only for myself.

To my knowledge, I have never met Ghislaine Maxwell. A photo of Elon and Maxwell is doing the rounds, taken at a party where I was also present. It is possible I was briefly introduced to her, but not in any way that I can remember. Elon and I met thousands of people over the course of our relationship. There will be countless photos of Elon with people he doesn't know/happened to be stood next to at a party.

Elon and I went to Epstein's house in NYC once as part of an itinerary of appointments. I can't even date it to a year – we used to travel constantly for work and the situation was always pretty similar in any city/country: back-to-back meetings, a car with CPO drivers, and often a contact/minder/guide. This trip was no different. There was a man taking us round the city and introducing us to various people.

The other thing I have seen implied is that Maxwell procured me as some kind of child-bride for Elon. Again, I don't know Maxwell. Elon and I met when I was twenty-two and he was on a business trip to London. It was a chance meeting, engineered by no one.

I'm distressed by something so truly awful being thrown around this court of Twitter. I hope that every victim of Epstein's finds justice and peace, and that any person involved in harming underage girls is punished to the full extent of the law.

I'm a homosexual. I'm innately same sex attracted. It is not a preference, a fetish, a phobia, or something I can 'unlearn'

I never expected to see this rhetoric in 2020. Gender ideology is so far reaching, and impacts so many aspects of liberty. It is not just about bathrooms

After a couple gained notoriety for taking up arms to defend their home in St Louis from protesters who broke into the private property, hundreds returned to the scene this past weekend, vowing that the couple shouldn't be allowed to live in peace.

Some public health scientists publicly waved off the conflicted feelings of their colleagues, saying the country now confronts a stark moral choice. The letter signed by more than 1,300 epidemiologists and health workers urged Americans to adopt a "consciously anti-racist" stance and framed the difference between the anti-lockdown demonstrators and the protesters in moral, theological and racial terms.

Those who protested stay-at-home orders were "rooted in white nationalism and run contrary to respect for Black lives"

Black on black violence isn't part of the Black Lives Matter narrative because Black Lives Matter isn't a civil rights movement, it's a political movement and black on black violence can't be exploited for political grist.

It's that simple. And Don Lemon knows it.

I praise J.K. Rowling for standing her ground.
She is a hero of our times. She is not transphobic and neither am I. This fight to preserve the free exchange of ideas is worth having; to protect the hard-won rights of women but also to uphold the principles of our free society.

Wrong.

Also it's the dehumanization of a person as deliberately malevolent simply because they hold different beliefs. This manifests itself in the left's belief that everyone on the right is not just misguided but "evil". It's simply not true.

Sorry @Jim_Jordan, Google, Facebook, and other monopolies have not "competed in the free market" they've destroyed it. Pathetic GOP is trying to weaken investigation into companies that hate them. twitter.com/JudiciaryGOP/s ...

generate hundreds of billions of dollars in annual revenue and have been central to the establishment of the United States as a leader in technological innovation and investment. In doing so, these companies have competed in the free market and delivered considerable benefits that have materially advanced the welfare of consumers across the country and the world. The nature of the Committee's investigation and the companies under examination suggest that this hearing deserves more thorough treatment than simply being confined to examination by a subset of Antitrust Subcommittee Members. This issue simply demands a hearing before the full Committee.

Another ludicrous move from this useless government that will only ensure more economic devastation (directly causing more poverty & death).

Another empowerment of an army of control freaks chomping at the bit to regulate everyone's personal behavior.

I havent seen the data but those things are not inconsistent. A spike in cases requires many MANY new cases above what has become the new normal

40 or so people at a party coming down with the disease is not going to cause a spike in cases

The two headlines are non sequitur

It is remarkable that it's always the people who spent the past year or so telling us that Boris and his crew are fascists who have unquestioningly embraced every Covid-related diktat issued by Boris's government. Stay in our homes for three months: You got it! Don't engage in sexual relations with people we can't live with: Sure thing! Wear a mask in public: Yes sir! The most fanatical lockdown-lovers tend to be found among the millennial left, in Corbynista circles, in the pages of liberal broadsheets, and of course among public-sector workers who know they'll have a job at the end of all this (unlike many private-sector workers). So it isn't surprising that these masochistic middle-classes are now turning against mask sceptics. 'Do as you're told!' they're essentially saying.

Here are the first 10 cases gratis. And in order to counter the false narrative that cancel culture only affects the rich, famous and powerful, and that it's just about "critique" these examples will all be about *regular* people whose actual *livelihoods* were targeted

It's also worth noting that these cases are not about people doing deliberately offensive things. There are no neo-nazis here. They are simply normal people (some even avowedly progressive) who have incurred the wrath of the mob because they violated the tenets of woke dogma

INBOX: ViacomCBS terminates relationship with Nick Cannon after he refuses to apologize or acknowledge wrongdoing by spreading blatantly anti-Semitic conspiracy theories

"ViacomCBS condemns bigotry of any kind and we categorically denounce all forms of anti-Semitism

We have spoken with Nick Cannon about an episode of his podcast "Cannon's Class" on YouTube, which promoted hateful speech and spread anti-Semitic conspiracy theories.

While we support ongoing education and dialogue in the fight against bigotry, we are deeply troubled that Nick has failed to acknowledge or apologize for perpetuating anti-Semitism, and we are terminating our relationship with him.

We are committed to doing better in our response to incidents of anti-Semitism, racism, and bigotry. ViacomCBS will have further announcements on our efforts to combat hate of all kinds."

The difference isn't between those who receive such vitriolic and ugly attacks and thus who don't, since it's inherent to having a platform.

The difference is between those who dramatically and frequently cite those attacks to depict themselves as victims and those who do not.

"The AP said white people in general have much less shared history and culture, and don't have the experience of being discriminated against because of skin color."

Said the AP as it literally discriminated against white people.

AP says it will capitalize Black but not white

By DAVID BAUDER

NEW YORK (AP) — The Associated Press ... will capitalize the word "Black" when used to describe ... race and culture. The AP said it would do the same for "white."

The AP said white people in general have much less shared history and culture and don't have the experience of being discriminated against because of skin color.

Protests following the death of George Floyd ... discussions of policing and ... symbols also prompted many news organizations to examine their own practices and staffing. The Associated Press, whose Stylebook is widely influential in the industry, announced ... that it would make Black uppercase.

The people slagging off Kanye can't even spell Kanye, which shouldn't be difficult because it's literally just 5 letters.

I mean, I know 'grammar police' is a cringe meme, but Jesus.

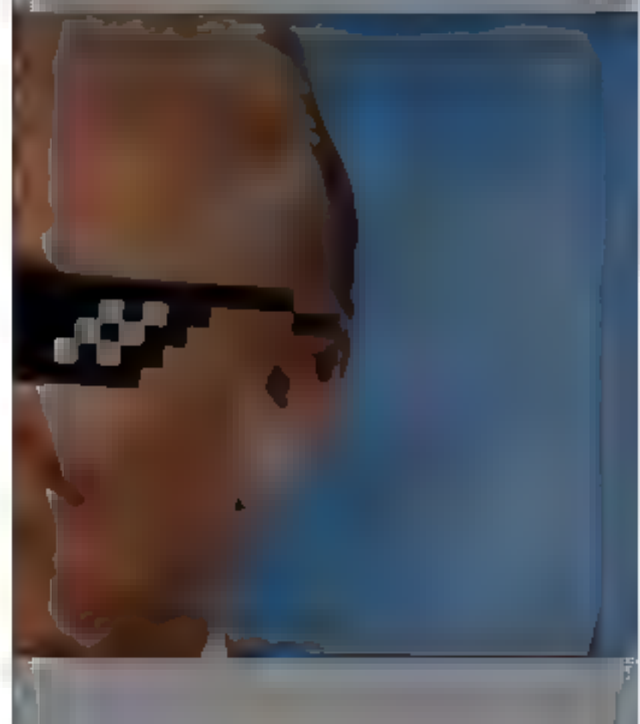
They're coming for Tucker Carlson with a sexual harassment lawsuit from Cathy Areu the "Liberal Sherpa" who claims she was "tied to a chair" while Tucker "changed in front of her."

DETAILS: She had a mic on from the segment, and he put on his jacket after the show ended!



writers whispered in Ms Areu's ear, while she was on set trying to get out of the chair, and told her that Mr Carlson wanted her to stay until the very end of the show to chat with him. Ms Areu had no choice but to comply with Mr Carlson s request due to the fact that she was on live television while tied to her chair with a microphone on her that was attached to the chair Ms. Areu was also wearing an earpiece that the tech crew refused to take off

31 Mr Carlson's tech crew refused to undo Ms. Areu's equipment on set therefore she could not leave the chair or studio.

32 Following the show, Mr Carlson changed on set into his leather jacket for the annual Christmas party that he told Ms. Areu he would only be attending for approximately 10 minutes to, "make a quick appearance "

33 Following the show, Mr Carlson, hardly making any effort to hide his intentions, began telling Ms. Areu that he would be alone in New York City that night, and specifically said that he would be staying alone in his hotel room without any wife or kids.

34. Without question, Mr Carlson was probing to see whether Ms. Areu was interested in a sexual relationship Ms. Areu awkwardly sidestepped Mr Carlson's advances and

Claiming that most conspiracy theories in 2020 center around things like that is a lie, and you know it.

Most of them are about UFOs, aliens, moon landing and Shane Dawson 'chuck-e-cheese' style content.

What if we didn't ban TikTok

What if we just made TikTok ban all its US users

Then the ACLU would be ok with it right?

Cuz there's a difference between banning an app and algorithmically banning thousands of people

> **ACLU** @ACLU
> Banning an app like TikTok, which millions of Americans use to communicate with each other, is a danger to free expression and technologically impractical.

If a black career criminal allegedly dies at the hands of police, it's proof of white supremacy and justifies burning down the city.

If a black career criminal executes a white 5 year old, it's just part and parcel of life in modern America

The people who blame Trump for all America's COVID deaths strangely ignore how deaths are concentrated in Democrat controlled areas.

They also incidentally love calling Trump a dictator anytime he does take federal action in states (like Oregon).

Strange.

The UK government is once again making rash, snap decisions based on an increase in cases due to more testing. In France, there hasn't been an increase in deaths.

Yesterday the Government removed France from the "Green List" of countries you can travel to without having to quarantine on return, along with the Netherlands, Monaco, Malta, Turks & Caicos and Aruba. From 4am on Saturday, anyone returning from France will have to self-isolate for 14 days. The reason? Rising case numbers. There have been an additional 11,633 positive test results in France in the past week, with approximately 600,000 tests being done, the highest number of tests to date. (On July 25th, the French Government introduced free PCR testing without the need to get a prescription from a doctor.) But in every *department* the percentage of infected people is still below the 50-100,000 threshold that in France would trigger a local lockdown. In addition, there's been no corresponding rise in hospitalisations or deaths (see above). That suggests the rise in cases is an artefact of increased testing and not due to an increase in the percentage of the population that is infected.

If a Trump supporter had kicked a BLM activist in the head, leaving him unconscious and bleeding on the street, it would be national news for a week.

The reversal happens in Portland, there's zero coverage, and it's just another video clip that will be forgotten about in 2 days.

The primary tool used in our culture to sexualize children is trans indoctrination. Those who argue that children have the psychological and emotional capacity to consent to a sex change are setting a certain precedent. And they know exactly what they're doing.

The reason for consent laws is that minors cannot consent because they don't have the neurological development to understand what they're doing and what the consequences are, etc. All of that is torn to pieces if we're pretending 5 year olds can consent to "gender transitions"

Is this suicide by cop or something? Why in God's name would you continue walking and then open a car door and reach inside while police have their guns pointed at you? If anyone of any race does that, they take their lives into their hands.

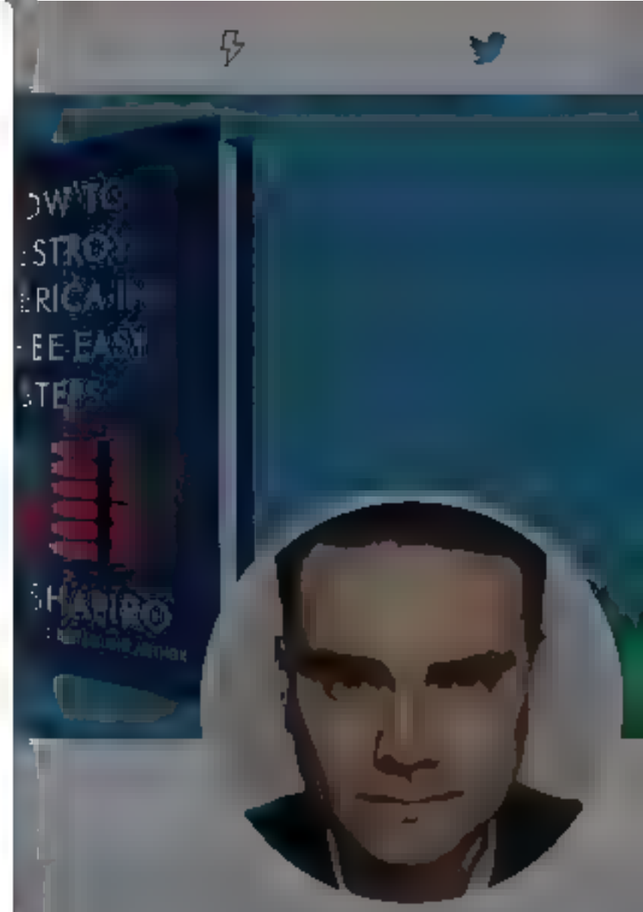
Ben Shapiro
@benshapiro

This statement is vile. It doesn't take down the temperature; it raises it. It explicitly jumps to conclusions in the absence of evidence. It's racial demagoguery of the highest order. And this is supposedly the man who will restore calm and normalcy to the country?

FOR IMMEDIATE RELEASE

August 24 2020



Statement by Vice President Joe Biden on the Shooting of Jacob Blake in Kenosha, Wisconsin

Yesterday in Kenosha, Wisconsin. Jacob Blake was shot seven times in the back as police attempted to restrain him from getting into his car. His children watched from inside the car and bystanders watched in disbelief. And this morning, the nation wakes up yet again with grief and outrage that yet another Black American is a victim of excessive force. This calls for an immediate, full and transparent investigation and the officers must be held accountable.

These shots pierce the soul of our nation. Jill and I pray for Jacob's recovery and for his children.

Equal justice has not been real for Black Americans and so many others. We are at an inflection point. We must dismantle systemic racism. It is the urgent task before us. We must fight to honor the ideals laid in the original American promise, which we are yet to attain. That all men and women are created equal, but more importantly that they must be treated equally.

According to the @WashingtonPost's database, police fatally shot 999 people in 2019.

250 were black (25%)

14 of those were unarmed (1.4%)

Just 1 of those was not in some way attempting to evade or resist arrest (0.1%)

The facts are clear: people who comply do not get shot.

Almost like they're just looking for an excuse to loot?

Surely not.

Courtney Godfrey @courtneygodfrey
Looting in downtown Minneapolis. Haskell's liquor store and Medical Arts building included. This is all linked to alleged suicide of suspect in earlier homicide. Crowds down here were convinced he was shot by police.

In a telling display, Hollywood and media leftists engaged in a tirade of attacks on black and naturalised speakers at the RNC, ironically charging that the GOP is attempting to hide its own racism behind a display of diversity.

A few months ago I thought Trump was in trouble, but looking at the polls and anecdotal evidence, it really seems like Democrats' endorsement of BLM could cost them the election.

> The poll numbers are backed up by anecdotal evidence from a New York Times article about how the violence is "already swaying some voters in Kenosha."
>
> The article quotes several voters who say their support for Trump has hardened because of the riots, while also highlighting how the chaos is driving Democrats away from Joe Biden.
>
> For example, 59-year-old Scott Haight said he was a "lifelong Democrat" but that he isn't going to vote this year.
>
> Priscella Gazda, who only voted once in her life for Obama in 2008, told the newspaper, "I am going to vote for Trump. He seems to be more about the American people and what we need."

There are 3 protests in London this weekend.

Black Lives Matter, Extinction Rebellion and anti-lockdown.

I wonder which one the media will denounce for improper social distancing?

After 93 nights of rioting in Portland, it was surprisingly quiet. Kenosha as well. This anomaly falls in line with Democrats finally realizing that rioting is killing them in the polls. So the question must be asked: who called off the dogs? This is a highly organized effort.

Mr. President, Americans are canceling weddings and holding funerals without family. They're sacrificing so more Americans don't have to die.

But instead of leading by example, you hosted a super spreader event on the South Lawn.

Before you say one more damned word in defense of the violent criminal and abuser Jacob Blake, read the complaint against him. This is why there was a warrant for his arrest and why his ex girlfriend called the cops on him. I'll summarize in the thread:

@MattWalshBlog
Blake is accused of entering his ex girlfriend's home early one morning while she was sleeping. She says he came into her room and without consent penetrated her vaginally with his fingers. He then stole her debit card and her car and fled

A new poll has revealed that the vast majority of people in Britain are happy for the government mandated lockdown to continue, with just 4 percent expressing a desire to see it lifted immediately.

A black cop punching a white woman in the head. Don't think this will be a CNN headline tomorrow.

A woman in Baltimore just punched a cop in the face twice.

Don't think she was expecting to get clocked in the head from behind...

A Trump supporter who participated in the Portland caravan rally was shot & killed in downtown Portland. Antifa & BLM extremists physically blocked them on the road & threw projectiles. After the man's death was known, antifa celebrated & danced.
